

BIRDS PRE VAN ACTIVITY SHEET

Color me!

The brown pelican is a large bird that lives along the coasts of the Atlantic Ocean, Pacific Ocean, and Gulf of Mexico. The brown pelican has a long, straight bill with an enormous pouch attached to it. They use the pouch to catch fish, feed their young, and cool themselves. They are the only pelican that can dive to catch fish. The pouch can hold up to three (3) gallons of water and fish!
