

Marvelous Mammals

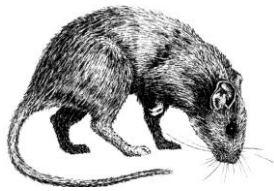

*Mammals are grouped by what they have in common.
Circle the mammal that DOES NOT belong in the group.*

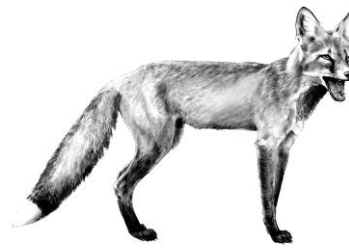

These mammals all have a brown-orange color on their front teeth.

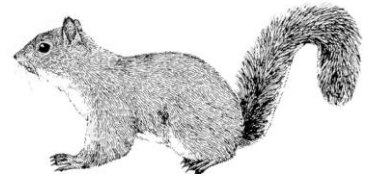

Beaver

Rat

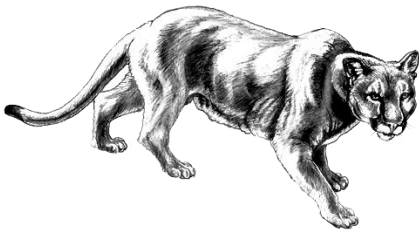

Gray Fox

Squirrel

These mammals have short faces. Their claws show when catching their food but do not show when walking or sleeping.

**Mountain
Lion**

House Cat

Black-tailed Deer

Bobcat

These mammals all have a gland that produces a smell.

Badger

Skunk

Weasel

**Little Brown
Bat**

Marvelous Mammals

- Mammals have their babies born alive (not in eggs).
- Mammals nurse their young with milk from their bodies.
- Mammals have hair or fur.

COLOR THE MAMMALS!
